

VRChat Texture Commissions

Terms of Service

Hello, I'm **Toquidapus**, also known as **Aiden**!

I provide full furry VRChat avatar material setup, including texture creation, shader setup, Unity implementation, and performance optimization.

By commissioning me, you agree to the following terms. These rules help ensure a smooth and fair process for the both of us!

Payment and Refunds	4
Turnaround and Communication	5
Q&A	6

Pricing

- ☐ Basic Retexture: \$50+
Clean recoloring and light base texture edits.
- ☐ Advanced Retexture: \$100+
Fully custom texturing as shown in my [portfolio](#), featuring advanced details such as emission maps, normal maps, and more.
 - ☐ Shaders Setup: +10%
Adding special visual effects like glow, reflections, lighting, and more with the use of [Poiyomi shaders](#).
 - ☐ AudioLink: +5%
Add effects that react to audio worlds that contain the [AudioLink prefab](#), such as glowing colors or moving patterns. Keep in mind that this is visible on PC only!

Prices may:

- Increase depending on avatar complexity.
- Change over time as my experience, workload, and demand change.

Additional Services

- ☐ Unity Setup: \$20
Setting up the files as a `Unity Package file`, so the avatar works properly in VRChat. Otherwise, you will simply be given a .ZIP file containing the textures.
 - ☐ vTuber Setup: \$20
Setting up the files as a `.VRM file`, so the avatar works properly as a vTuber.
 - ☐ VRChat Optimization: \$15
Improving VRChat avatar performance to help reduce lag, potentially improving its [performance ranking](#) and effectively showing it to more users by default.
- All Unity related work will be exported as a Unity Package file.
 - All prices are listed in **\$USD**.
- ★ [Click here](#) for a helpful currency converter.

Model Requirements

You must:

- Upload the avatar yourself through Unity. [Learn more](#)
- Own and have permission to edit any model submitted for commission.

Several model creators require **both** the client and artist to own the model. In these cases, you need to:

- Provide proof of ownership
- Purchase your own copy of the model, plus a copy for me if required.

I reserve the right to decline commissions involving unauthorized, leaked, or improperly redistributed models / assets.

Age Requirement

If a commission involves any 18+ / NSFW texture edits, you must be 18 years of age or older. By requesting these types of edits, you confirm that you are legally an adult in your region.

Payment and Refunds

Accepted Payment Methods

zelle (🇺🇸 U.S. only, preferred)

PayPal

Note: Some PayPal payments may include processing fees. [Learn more](#)

Payment Policy

- Initial 50% before work begins, plus [model fee](#) if required.
- Remaining 50% near completion.

Final files will not be delivered until the full payment is received.

Refund Policy

- Refunds are not available once work has started.
- If I am unable to complete your commission however, a full refund will be issued depending on progress made.
- I may also decline the commission if I deem it to be outside my skill set, or if they involve poor communication.

Turnaround and Communication

Commissions are estimated to take 1-3 months. Delays may occur due to my current college / job workload, delays in communication, or complexity of the work, but I will do my best to keep you as updated as possible!

Continuous back and forth communication is expected throughout the process.

You are expected to provide clear references and instructions, and respond within a reasonable timeframe through agreed contact methods, whether its via:

Continuous back and forth communication is expected as I work on the model. Minor tweaks as I do so are allowed, but major reworks are subject to an upcharge based on the level of effort required.

Thank you for considering my commissions, and for supporting my work!
Even if you're unable to commission me directly, sharing my work with others or recommending me through word of mouth helps more than you'd expect, and is always greatly appreciated!

Questions? Please don't hesitate to reach out with one of the contact methods above!

Q&A

How do I upload my avatar?

1. Ensure you have a VRChat account, and your trust rank is at least **"NEW USER."** [Learn more](#)
2. Download the [VRChat Creator Companion](#), and create a new 2022 Avatar Project.
3. Install [Unity 2022.3.22f1](#).
 - 3.1. (Recommended) Install with Android Build Support to make your avatar work on Quest / Android devices, and iOS Build Support for Apple devices.
4. Once your new project loads, use the white menu bar at the top, and navigate to Assets > Import Package > Custom Package...
5. Select your .unitypackage file. You should now be mostly good to go!

Where is a good place to find models?

Personally, I highly recommend using [VRCArena](#)!

"A free, community-driven, wiki-style collection of VR avatars, accessories, retextures and tutorials categorized and tagged to help you find what you're after."
